Sir:

The Advisory Action, Paper No. 11, from Examiner Urszula M. Cegielnik of Art Unit 3712, dated 17 January 2001, has been received and carefully reviewed. The Examiner has refused to enter the Response and Amendment after Final filed 9 January 2001 alleging that amendments therein raised new issues, new matter, and did not place the Application in condition for allowance and/or place the Application in better form for appeal.

In Response to the Advisory Action, Applicant files this CPA and respectfully submits the following comments.

**1. The Inventor's Name**

Applicant notes that the inventor's full name is John Musacchia, Jr. as was listed on the Declaration, and on the Title Sheet of the Application. In several correspondence with the USPTO, the "Junior" has been erroneously left off when identifying the inventor.
